Update on the build. According to the contract programme all work taking place is on schedule. The foundation excavations for the first three cottages and dining hall are now complete. We are pleased to announce that we are currently employing over forty people in Phase 1 of our construction.

Our plan for Christmas is slightly different this year. Due to an increased difficulty with transporting items to Tanzania we have decided to buy our clothes and gifts in the country and in turn support some of the local businesses.

On Christmas Day we have booked a hall for the children and staff where they can enjoy a buffet style meal and some live music.

We have also planned to bring the children, teenagers, and staff on a big 'Family Fun Day' shortly after Christmas Day. We went to visit the 'Water World' park in August and brought home brochures for the children to look at. They were so excited at the thoughts of going to 'Water World' for the day that we knew that this trip was going to be extra special for them. Activities included on the day are swimming, a ride on the train, a turn on the bumper cars, access to the bouncy castle zone, water cars and some delicious food in the restaurant before returning home in the evening. The cost per person including transport, food and a full day of activities is thirty euro per person.

If you were planning on buying a Christmas present for your sponsored child, we would prefer you to donate towards the family fun day instead. These trips create memories for a lifetime for all our Tír na nÓg children. Remember you are under no obligation to donate this is simply a suggestion.

All donations for our Family Fun Day can be made by clicking on the link
